### **VISION STATEMENT**

To maintain our core policy of ensuring that we supply only top of the range industry standard equipment/accessories at the most competitive prices. To continue to forge partnership exclusively only with industry tested and trusted equipment manufacturers and service providers.

### **MISSION STATEMENT**

To become a major and trusted name in the supply of equipment/accessories/services in the oil/gas sector and other related technical sectors in Nigeria. To build very strong, efficient and reliable partnerships with manufacturers and service providers around the world to ensure that our clients get the very best.

### **INTRODUCTION:**

**NEWCOM INDUSTRIAL SOLUTIONS LTD.** (NISL) is a wholly Nigerian owned company established to source and supply top quality equipment/accessories directly from equipment manufacturers across the globe to companies having the need for such equipment and accessories in their operations in Nigeria. We are also poised to render quality service in the area of civil construction, alternative energy and general service delivery.

**NEWCOM INDUSTRIAL SOLUTIONS LTD.** has extensive collaborative arrangements with these manufacturers and service providers to ensure smooth and timely delivery of genuine and top quality equipment/accessories and services to our clients while ensuring active after sales technical support where it is needed. We ensure that all equipment and accessories sourced and supplied by NEWCOM INDUSTRIAL SOLUTIONS LTD., are certified in accordance with international industry quality assurance and safety standards. Our technical staff is trained in industry standard installation, commissioning and maintenance techniques backed by our technical partners.

Our customer service is always ready to assist the customer with a prompt response to service requests. Customer satisfaction, quality and competitive pricing are the main focus at NEWCOM INDUSTRIAL SOLUTIONS LTD. Our agreements with all the companies we represent cover technical support and they will produce to order to meet specific project requirements.
